

PT Parawood

PT Parawood

Director's Declaration – Committing to biomass standards

- Green Gold Label
- Sustainable Biomass Program
- Better Biomass – NTA 8080
- ISCC
- EUDR
- REDIII
- FIT/FIP

Scope:

- PT Parawood Co.,Ltd

Disclaimer: Only products sold indicated with an GGL, SBP, and/or NTA8080 certification are certified as such.

The Management of PT Parawood Co.,Ltd declare its commitment to:

1. Responsibilities for GGL System Standards

- Oversee the proper development, implementation, and maintenance of relevant GGL system standards.
- Promote awareness of GGL rules across the organization.
- Ensure the accuracy of claims regarding power generated from GGL-certified biomass through proper bookkeeping and effective traceability.
- Implement an integrated biomass Chain of Custody (CoC) management system at all applicable organizational levels.
- Maintain all required biomass CoC records.
- Regularly review the biomass CoC management system and allocate adequate resources.
- Conduct internal audits to ensure ongoing compliance.

2. In commitment to our sustainability policy, PT Parawood affirms that we are not directly or indirectly involved in:

- Illegal logging or the trade in illegal timber or forest products.
- Violations of traditional or human rights in forestry operations.
- Destruction of high conservation values in forestry operations.
- Large-scale conversion of forests to plantations or non-forest uses.
- Introduction of genetically modified organisms in forestry operations.
- Violations of ILO Core Conventions, as defined in the ILO Declaration on Fundamental Principles and Rights at Work (1998).

3. Implementation of Applicable Standards

- Ensure the implementation and ongoing maintenance of all relevant standards, including GGL, NTA-Better Biomass, JIA, ISCC, and SBP.

4. Core Labor Requirements

- Comply with core labor requirements, including the prohibition of child labor, forced labor, and discrimination, while upholding workers' rights to freedom of association and collective bargaining.

5. Commitment to Output Requirements

- Establish and document the organization's commitment to implementing and maintaining material flow record requirements.
- Communicate this commitment to all personnel, suppliers, clients, and other relevant stakeholders.
